## **File Backup Watcher (Free Edition) Crack Patch With Serial Key Download**

File Backup Watcher is a robust & easy to use backup program that allows to create backups of files, folders and their archives, both on the local computer or in the local network. These backups can be automatically carried out with "Schedule" function or be executed manually as well. File Backup Watcher will also help you to restore the original files from the backup created by this program, as well as to compress backup files. The program uses the internal Zip-compression to achieve maximum compression. As a result, the backed up files are smaller than the backup files, that were created with external compression (zip or other) methods. After the program is finished, an adjustable log displays all actions carried out, thus helping to cope with any problems. File Backup Watcher is a standalone program that does not require a separate server application. In addition, the program can be operated in "Hidden" mode in order to prevent unauthorized access to the program data. File Backup Watcher includes such important features as: • Automated backup and/or restoration of files, folders and their archives • Scheduling backups • User interface • Portable version • User skins support • Backup and/or restore of files, folders and archives • Compression with internal Zip-compression • Portable (standalone) version • Backup to file(s), e-mail, FTP, CD, CD-R, CD-RW, DVD-R and DVD-RW • Compression • User settings backup and restoration • Restore and compression • Priority task control • Easy to use • Log of all actions File Backup Watcher is released in English, Polish, Italian, Russian, Simplified Chinese, and Arabic languages.
