

Ready to train your memory? ONNECT is a 3D pair-based puzzle game with challenging levels. Find matching tiles, match pairs... or rebuild them to complete the level! Don't miss the opportunity to become an ONNECT champion. As the game progresses, the levels only become more difficult, with each new attempt you will need to memorize more and more pairs. If you can't do it within 90 seconds, you'll have to start over. Fortunately, ONNECT has a hint system: use them to see all the tiles. If you need more than 90 seconds or no hints are available, try a different game mode.
