► “ The game is rated T for this reason... Oh sorry.” Review from Hachimaki! ► “ A game that has been entertaining me just as much as the previous title. There are a lot of customization options such as deciding how many attack combos you will have, and even the amount of HP you will have. Both Bloodlines have a few gameplay differences. Bloodlines 2 seems to be a bit more demanding than Bloodlines as you will have to level up your character in order to gain more skill points in order to advance. It’s definitely one of the best Diablo-like games on the PC.” Review from Godless Guru Gamer ► “ It is definitely a fantastically balanced game. It is simple, fun, and the game mechanics are executed perfectly to produce the greatest of feelings when you finally make your first kill as an Arch-Demon hunter. The game play could use some minor improvements but overall the game is great.” Review from Game Informer ► “ At the beginning of the game, I didn’t know what to expect, but I must say it’s still absolutely one of the best game I’ve played in a while. The combat is fluid, the characters models and the environments are very well polished, and the story is executed very well; it doesn’t have a cliché ending and it will keep you intrigued for a while. [...] the story is fantastic, the characters are highly fleshed out, the emotional transitions are great, and the world is absolutely immaculate and it keeps me craving for more”. Review from GameHunters News ► “ A fantastic action game which takes a little bit from the Diablo-series. [...] Basically the game is a Diablo-clone. However, they have incorporated this game into a more mature game, and thus I can safely say that it is one of the best titles released in 2011.” Review from GameHunters ► “ Would be the greatest Diablo 3 mod ever to exist.” Official Kickstarter Campaign THE NEW FANTASY ACTION RPG.
