You are about to embark on a five-day open-world adventure, but what path will you choose? You can approach it from any direction, but some are more exciting than others. Does your group desire a peaceful excursion, or would it like to risk conflicts on the open-world? Will you be encountering animals, bandits, faerie, rogue elementals, snow goblins, trolls, orcs, gnomes, demons and nix-hounds? How about traps? Hordes of orcs? A fireball kobold? Or perhaps one of the other 150+ rare beings lurking in the shadows? The choice is yours, and your companions will help you decide what the outcome will be. There is a wide variety of dangerous adversaries that will need to be fought, or avoided. The best adventurers can count on stealth, special potions, traps, and their own sharp intellects to help them on their way. Your groups must also be able to adapt their tactics to different obstacles that they will encounter. This episodic game will follow the adventures of up to four players, but you will still be able to choose your own path. Your adventures will be different because each playthrough you will be randomly generated into a different group, and each group will be randomly assigned different missions for their adventures. The only thing that will be given to you are your innate skills (such as Stealth, Perception, Intelligence or Strength) so you can be guided to your destiny by what you have to begin with. You will be given four days to explore the lands of the Forgotten Realms, but you can decide when to begin your adventure at day 1, day 2, day 3, or day 4. This is the first time the Dungeons & Dragons setting will be offered as a free to play F2P game. This means you won't have to pay real-world money to play this version of the game. Instead, you'll spend in-game currency to purchase play time, items, and upgrades. This free to play version of the game won't have an in-game store. Instead, it will offer expansions to the game, called Chapters, that will be available to players. The additional Chapters and their stories will be available to download for free, without being tied to your Adventurer's log-in. Additionally, the game will include a social feature that will allow you to communicate your character's adventures with your friends. The first chapter of this story has only been made available for this

Features Key:

New Storyline: at certain points during the game, a new story will be played; player can fly to the next Chapter in just a few minutes.
A New Gameplay with three new sections, and different types of Maps in which to navigate!
Easy to play, Game Keys added to lockpicks in a Prison.

Free Map Editor/Design Tool to create your own Arena Maps.

Requires a Transcriber

You will be provided with a set of special translators, in the format of GTA:SA, to author your own dialogue. This is a requirement and must be done. Submissions should be done at least a day before actual release if possible. Be as specific and descriptive as you can. Please let us know why you made the changes you did. It's ok if you change a few things. As a matter of fact, looking over a few of yours might be an eye-opener when it comes to understanding what works and what doesn't.

Just to reiterate, this is an online application. You need a good connection to download the game key, and all other files. Any questions, please contact us at info@slayer.game.

In Eye of the Beholder II: The Legend of Darkmoon, players will take control of the legendary adventurer, Wently Kelso, whose most prestigious title has been humbled by his latest adventure. The prestigious lifestyle of a powerful adventurer is about to be tarnished by adventure once again as Kelso is responsible for investigating the recent disturbances affecting the land of Waterdeep. His quest requires him to explore the land of Waterdeep in an unknown fashion. He will soon discover that the disturbances he is currently investigating are the result of an ancient evil which is, perhaps, ready to repeat itself in the land of Waterdeep. The mysterious evil is not something to be taken lightly as its mysteries lie at the heart of a mystery in the lands of Waterdeep. Players will encounter many foes, hidden dangers, and mysteries as they attempt to reach the final confrontation with this ancient evil once and for all. Story Khelben Blackstaff is responsible for appointing adventurers, from all across the Realms, to investigate the recent disturbances in the countryside. In this instance, he tasks you, Wently Kelso, to undertake this task on behalf of Waterdeep. In fact, the population of the city is concerned that the source of these disturbances lies in the mysterious Tower of Frost: an ancient structure from the ages of the Forgotten Realms. With your impressive knowledge and skills gained from previous exploits, you have the opportunity to uncover the secrets of this tower and save Waterdeep and the nearby town of Imperial's Town from a waking nightmare. Unable to respond with the casual "Let's get to the bloody business," of the previous adventure, things have become much more interesting now. In this new scenario, you must prove yourself worthy of Khelben Blackstaffs trust in order to prove your value as a Squire. It is clear that you are the only one who can accompany Khelben in a quest for answers, but before you make such a dangerous journey, you must prove yourself to your master.To enter the game, the NPC needs you to go talk to him inside the Sanctum in Waterdeep. Game changesSince the last release, there have been a number of changes to the rules:The art of the encounters have been redesigned. This feature was absent since the 3.1 release, but is available for the first time in version 3.5.1.The linked experience points for the skill of the monster has been reduced. To compensate this, the learning cost has been increased and every level has its own learning cost. This is likely due to the fact that the number of monsters of level 6 to 8 has been increased. However, as the numbers were not updated, many adventurers only got one level 5 quest instead of two, or there are very few quests at level 6.The experience cost has been increased. This also accounts for the fact that the monsters have been slightly harder.In order to adapt to the new rules, I had to make some changes to the monsters: The monster damage scales like the combat rules. I had initially added this in version 3.2, but did not update it when I changed the combat rules in 3.1. The monster learning costs have been increased, again, this is because I felt that they were too easy. Each monster now has its own quest and cannot be used for the entire game. In order to make this balance work, monster damage has been increased. When you finish a monster quest, you gain money from it which you can use to buy new items. Unfortunately, it's very difficult to balance such an expanded world. Players will have much more options when selecting items and may thus be over-equipped. However, if you have the time and the patience to rebuild your gear, you can certainly do it. In addition to the monsters, I added a lot of new items to the game, including a great new shoulder piece. I also added a very large arm guard that can be equipped on both weapons and armor,

What's new in Eye Of The Beholder II: The Legend Of Darkmoon:

The Belks are watching you. This isn't the former Big Bad Wolf BBB2 -- it's the paparazzi, an evil amalgam of Mia and Papa Joe Bellatrix and all the others. Except, "The Belks" doesn't even mean the original Belk family — it means the paparazzi are definitely up to no good. Media manipulation! Hide-and-seek! Riddles! Piracy! Murder! Why, that old Evil Bellatrix has got a list a mile long, and she's only getting started! Eye of the Beholder III: The Sword The Belks are watching you. Not some delusional Bad Wolf BBB3, but the All Seeing Eye BBB2, daughter of Mia Bellatrix and Papa Joe Bellatrix and an even newer threat to the System, combined with former System player Selena Bellatrix.They tell me something different, something you see in their eyes. It's judgement day, and we're all guilty of something — like their brothers, they all have something to atone for. The Beginning of the End Six years before the first Generation Bellatrix came into the world, the Big Bad Evil Bellatrix's already back with another murderous First Generation baby, and no one knows what she'll do when she grows up. The System just can't help itself, and it makes a decree that until the baby is 18, a Bellatrix will have to shadow her sister.The system has given this pair an entire Bed & Breakfast with plenty of staff, six nannies, and a hectic schedule. All the family needs to do is practice their discipline; they may be the most famous clan in the Game, but they're still in line for the Judgement Day. The beginning of the End, perhaps, the final conflict... Beyond the Dark Elm One of the most popular series' of the Big Bad Evil Bellatrix's baby sister, skipping the redhaired eight year old entirely, and going to the original Evil Bellatrix, as the evil plan takes shape in early adolescence. Plus, Daisy Bellatrix, Bella and Selena's older sister! Audible narrator: This is a work of fiction. Names, characters, places, brands, media are all either the product of the author's imagination or are used fictitiously. Any resemblance to actual persons, living or dead, business establishments, events or
