Every year there is new FIFA Game. This year it is FIFA 22. People should know what is FIFA. I will give a brief on FIFA from the beginning. FIFA stands for (Fast and Furious Interactive Football), it was developed by EA Canada. The first game released on the new millennium was FIFA 2000, which was released in October 1999. FIFA 2002 was released in March 2001. The third version of FIFA is FIFA 2004. It was released in September 2003. The next version was FIFA 15 that was released on September 2013. The next version is FIFA 22. This version was released on September 2015. It is a football game, but FIFA is not only this. It has other features like official football leagues, coaches and players, football clubs with their stories, teams, stadiums, player stats, game play modes, skill training games, online mode, and more. What I want to say now is EA is one of the best videogame companies. If you played football or FIFA before, then you will recognize FIFA as what it is today, the best football game. How to choose the best FIFA game? There are tons of choices on FIFA. I will highlight some of them. Payment: You can buy FIFA 22 via the Internet, either for PC, Mac, or PlayStation consoles, or you can download the free playable demo available for Android and iOS devices, including iPad and iPhone. Platform: There are two main consoles, Sony PS3 and Xbox. There are also Android, iPad, and iPhone. Genre: You can play the FIFA game in various modes. Two main play modes are the Career and League modes. League mode is a lot better to play than Career mode, but the main thing in FIFA is to play in a team and win matches. The only way to be good in FIFA is by playing league mode. There are many other modes in FIFA, however the goal is to win matches, or practice for matches to be the champion in the league. There are other things like individual training, passing, heading, shooting, and defensive practice. There are three different difficulties of play. You can choose between easy, medium, and hard. Easier is when you have less opposition and tougher is when there is no competition. A few other little things are made to make the experience easier like a touch assist, goal assist, and a pass to intercept. There are many online modes as well
