It is a new genre of tower defence games. The gameplay is based on the tower defence genre, but has a storyline - a day-to-day story of a hero living through the events of a disaster, and having to find ways of survival. The players can play the adventure in either "Survival" mode, in which they must find weapons and try to survive a long time, or "Defend" mode. The game is based on "Tower Defense" gameplay, but has a "Tower Defence" atmosphere. There will be battles in real time - not timed but time-bound, so that you have to make a decision how to defend. The "Tower Defence" gameplay will be a base for this game. News and Updates: 18/4/2016: Version 2.0 updated with NEW graphics and improved gameplay. If you want more fun, this is the game you want: Q: What do we mean by "isomorphism of the horizontal and vertical edge homology"? Source: Algebraic Topology (Moise, R.W., Minor, J.S.) On page 9, we define A homology theory  $H$  for which for all spaces  $X$  of dimension  $n$  there is an isomorphism of groups  $H_n(X)$  to  $H_n(\mathbb{Z})$  is called an isomorphism of homology theories for spaces. I don't understand what this means. Does this mean that the geometric realizations of spaces satisfy  $d_1b_202975$
