Kelk 2010 Patch V3 Download I think the problem is  
solved. Hope you understand my problem and please  
rate this question so other will also get help. A: This is a  
known bug with XAMPP, and has been reported on the  
forum for some time: This being the case, I would  
suggest using WAMP server instead. 1. Field of the  
Invention This invention relates to imaging technology,  
and more particularly to a method for reducing Moiré  
effects in an imager. 2. Background Art A related art  
imaging apparatus, for example, an imaging apparatus  
using a CCD (charge coupled device), has such a  
problem that when there is a moire generated by  
superposition of an interference pattern of an aperture  
shape formed by MTF (modulation transfer function) of  
an optical system with a periodic pattern of an object  
image, the moire cannot be completely eliminated. One  
technique of removing the moire pattern is to apply an  
appropriate phase correction to the image signal to be  
frequency-converted and output as a video signal.  
However, the moire pattern remains in the video signal

---

outputted to an output device, and this moire pattern, if detectable, disturbs the operation of the output device. A different technique is to apply appropriate adjustment of the scale to the entire or partial video signal to be outputted, thereby to reduce the moire pattern. The former technique may make the device highly sensitive and thereby to cause problems in the area of viewable images, while the latter technique enables a reduction in the moire intensity by reducing the area of viewable
