We want to bring Battlers to everyone! About the Game: From the mobile game RPG Maker MV and of the RPG Maker MZ series, named "RPG Battlers - 3rd 50", we have developed RPG Maker MV of the advanced version and a basic version, but this time we have brought a pack to be released in the west! This pack is the RPG Maker MZ- Yoshida version and the RPG Maker MV- Yoshida version, and in this pack there are the characters that appear in them. The basic movement of the game is completely compatible with the game, and there are weapon crafting and attribute creation that have been changed, and the number of weapon scripts has been increased. There is also a UI (user interface) that has not been changed as much as the other series RPG Maker, and the sound effects, which have been changed due to the change of the sound engine to be compatible with the MOBILE GAME IDE of the Android and iOS platforms.
