What's new in Time Carnage:

is a text adventure game produced by Chunsoft and developed by THQ for the PlayStation. This PlayStation release is an all-English translation of the PC-Engine original. It was released in August 1998 in North America. Plot In the year 200,000, the gates to each elemental realm are about to be sealed. The story follows a young mage named Kazuya who has been sent to fetch the Magi Stones from the Smiling Land to seal the gate in the Seventh Realm. Along the way, however, Kazuya is ambushed by Yalda, the monster who raised him from childhood, and captured. Gameplay Gameplay is similar to Umineko, another Chunsoft game, and Lost Universe. Each game screens utilize 16 frames per second with each frame divided into four equal parts. The character moves in eight directions to the diagonal. In some aspects, the game departs from other Chunsoft games, for example with the player controlled turn-based battles. Each part of the game has several scenes to be played where the player has to determine what to do next based on input from the player character. "Goto" takes the player to that scene with the additional input to select the route. "Talk to" allows the player to choose from a menu to ask certain questions of the NPC or other character while "Simple Item/Loot" and "Choose Item/Loot" are simply used to pick the item from the menu. "Talk to" can also reveal clues to the investigation to be done for each scene. By breaking away the game, the player can view the relevant scenes in order to unlock certain clues. Characters Kazuya Voiced by: Samantha Hahn First playable character; a young boy with dark hair and sky-blue eyes. He is an aspiring mage and was raised by monster Yalda along with his brother Mine. He works diligently in his guest despite his initial mistrust of others and lack of skills. He possesses the ability to use the Mark which allows him to imitate the methods and senses of his opponents. He has considerable skill in alchemy, but his knowledge is limited to creating simple remedies, and is unable to create potions of sufficient strength. Mine Voiced by: Tyson Dustersmith Kazuya's older brother who can also use the Mark, and who has often been seen as his rival. Like Kazuya he possesses the ability to imitate others by using
