Zaccaria and Zankor Deluxe Pinball Table consists of 7 playfields, 18 playable characters and 4 bonus playfields. In "Zankor Deluxe Pinball Table" the player starts on the main playfield and can choose to play on the left, right and middle playfield. The player can move the ball by pushing the D-Pad and rotate the ball by the joystick. Once the player hits a spot, the ball will enter a bonus playfield and eventually return to the main playfield. The player can play any combination of the playfields and collect points based on the spin of the ball. If the player accidentally puts the ball into a hole and plays an incorrect bonus playfield, the ball will reset and the player will lose a lot of points. For the special icons used in this table, please refer to the table below. As the player progresses and hits spot targets, characters will appear on the playfield. The player can rotate these characters with the joystick and push

The pool and hole bonus can be played at any time and are worth more points. When a character is pushed into the hole or pool, the ball will disappear and the player will lose a lot of points.
