Key Download Full Version For XPQ: How to use TypeScript in Karma? I'm having issues  
trying to compile TypeScript after including it in my karma.config.js file. I've also tried  
compiling it manually via the browser, but the same problem occurs. It does appear to be  
building, just doesn't work. Here is my Karma.config.js: module.exports = function(config) {  
 config.set({ basePath : '', frameworks: ['jasmine'], files: [
