Navigation Code Unlock 8.4 Uconnect

spot alerts [10] be informed and get the most out of your driving with the new spot alerts function. spot alerts is a new feature in the navigation system that tells you about road closures, traffic accidents, detours, and more. this feature is enabled in the navigation system once you have driven the selected route at least once, and will be enabled by default for the upcoming navigation update. spot alerts are also available in the navigation system's new drive control mode, and will be active in the upcoming navigation update. the navigation system can also connect to your smartphone, and provide other features like live traffic and telematics. once connected, you can use your smartphone to search for driving directions, get your car fixed or even locate your vehicle on the road. ****note**** services described in this message are future capabilities that are subject to change. the navigation feature of siriusxm guardian will work by linking your current location to your vehicle's ignition key. once the ignition is unlocked, siriusxm guardian will know to start your vehicle and immediately locate you. it'll even guide you to your destination and connect you with your favorite stations. there are no subscription fees for the navigation feature. with the siriusxm

app, you can get to your favorite stations while you are driving, without having to have your radio on. the app also lets you use your voice and siri for navigation, text, and calling as long as your vehicle has bluetooth connected. 5ec8ef588b
