Betternet allows users to route all network traffic through secure tunnels. The platform offers advanced encryption as well as multiple kinds of protocols, so you can select the right one for your needs. The application allows you to choose from a list of proxies and tunnel servers. You can even share your connection with up to five other devices. Betternet provides individuals with a safe connection. A directory of IP addresses stores all available servers and makes it easy to add new proxies for your new connections. You can also search the entire directory directly to find a match for your current VPN connection. Betternets interface is user-friendly and has a minimalist design. The program has a VPN, proxy, and SOCKS 5 server at the same time. Betternet for Android and iOS offers more than 350 million server locations all over the world. You can also create your own local IP address as well as access an extensive directory of public VPN servers. The best thing about Betternet is its simple interface, which allows users to create VPN connections with just a few clicks. The app also offers desktop apps for Windows, Mac, and Linux. The interface is clean, easy to navigate, and informative. Betternet is a pretty straightforward application with a wide range of features. The user-friendly interface does not require you to possess any technical knowledge. If youre just looking for a proxy server to set up an anonymous connection, you will be able to accomplish the task within seconds. You just download the app, install the program, and click Connect in the main interface.
